General guidelines for the submission of proposals

IMPORTANT: Please ensure that your proposal has clear and explicit pedagogical implications to the ELT classroom in one or more levels of education or learner ages. Proposals which have vague classroom implications will be rejected.

Presentation titles should be written in English and in Spanish. The abstract will appear in the Conference programme. It should accurately reflect the content of what presenters are going to talk about, as it is on the basis of the abstract that participants will make their decision to attend the session. Abstracts over 75 words will not be included in the programme.

The summary of approximately 250-350 words should provide clear information about the presentation's content and organisation. It should outline exactly what presenters are going to talk about in the session and how the session will be structured. It will be used for blind review by the academic committee and will not appear in the conference programme.

Type of presentation:

1. Papers

A paper presentation details the ongoing or concluded research, theory and/or practice conducted by the presenter(s).

Time: 25' + 5' for Q & A

NOTE: Speakers will be given access to a Zoom meeting while FAAPI attendees will be following the presentation via live streaming in Vimeo. Attendees will be able to make comments and ask questions in the chat section of the streaming platform and a moderator will make sure to transfer these questions and comments to the speakers during the Q&A session.

Criteria for selection:

FAAPI
Federación Argentina de
Asociaciones de Profesores de Inglés

Remember that every proposal consists of a **summary** and an **abstract**.

- The summary is related to the Conference main topics and subtopics (see above)
- This session or a version of the same one, should have not been presented at a previous academic event.
- Something new to say should be included in the planned summary to shed new light on the topic selected. It should also be clear that the level of knowledge of the expected audience should be taken into account as indicated in the presenter's form.
- If the presentation relies heavily on a description of the local situation, be sure to discuss either the implications for people working in similar contexts, or its general relevance.
- The title should have a maximum of 10 words and be self-explanatory.
- The abstract must be 75 words and accurately reflect the content of the talk.
- The summary must be between 250 and 350 words.
- Proposals for papers can have up to three authors and all of them must be registered at the conference before the deadline for presenters.
- Presenters cannot submit more than two proposals whether individually or jointly.

Note: Receipt of proposals will be acknowledged. If presenters do not receive acknowledgement within 4 days of having sent their proposals, they may enquire at callforpapersfaapi2021@gmail.com . Please, avoid duplication of materials by submitting them.

Publication of Selected Papers (ISBN to be confirmed):

Publication of the submitted papers will not be automatic, as the papers will go through a selection process.

Authors whose evaluation forms recommend publication are invited to submit a paper based on their presentation (between 2,800-3,500 words, including references, tables, and

Federación Argentina de
Asociaciones de Profesores de Inglés

appendices) on a date to be published. These papers will be reviewed by the Selected Papers editors who will inform authors whether their articles are accepted, accepted with modifications, or rejected. This process is different from inclusion in the conference programme, that is, a presentation may be included in the programme but the paper may not be part of the Selected Papers. This is due to the different nature and aims of an oral presentation and an academic manuscript. Note that the ultimate decision to include a contribution is in the hands of the Editors. The Selected Papers e-book will only include between 20-22 papers.

To submit a proposal, please complete the Presenter's Form at www.faapi.org.ar and send it to callforpapersfaapi2021@gmail.com from 8th March to 30th April.

IMPORTANT! To be a speaker, the candidate must be a certified language teacher or if a student, present in collaboration with a certified teacher.

The official language of the Conference will be English.

All presenters should be registered at the Conference by May 31st, 2021

If there is no registration by that time, the presentation/presentations will not be included in the Conference programme.

Instructions for manuscript preparation:

- Include a title, authors, affiliation (i.e. only one institution where you work/study), and an email address (this will be published)
